Instructions:

In Visual Studio Code, write the code that accomplishes the objectives listed below and ensures that the code compiles and runs as directed.

- ☑ Create a new repository on GitHub for this week's assignments and push this document, with your project code, to the repository.
- ☑ Include the URLs for this week's repository and video where instructed.
- ☑ Submit this document as a .PDF file in the LMS.

Coding Steps:

- ☑ Using HTML, Bootstrap, and JavaScript create a single page website that contains the following:
- ☑ A Bootstrap styled table representing your choice of data.
- ☑ A Bootstrap styled form that allows a user to add a new row to the table when clicking on submit.
